Beacon
BY TPA STREAM

Confidently advise clients and provide better-matched plans with the claims insights you need.

Get a full picture of benefits spend for any sized group

Beacon provides historical healthcare claims insights for any group so you can confidently advise clients, provide better-matched plans, and qualify them for stop-loss insurance.

Forget basic demographic models, time-consuming questionnaires, or flawed self-reported health surveys. Instead, access a real healthcare claims data assessment for any employer group.

Clear, insightful reports

Unrivaled access to detailed and summary claims reports, and our exclusive Small Group Risk Assessment which summarizes group demographics, high cost medical and prescription claims, high utilization, Out-of-Network claims, and more.

Get a clear picture fast

In less than 30 days, you'll have the detailed insights you need to confidently plan. Beyond that, the data can be exported to over 30 systems or downloaded directly for more custom analysis.

1. Employer Connects

We make employer onboarding easy, with just a few fields for them to fill out to access Beacon. Once signed up, employers can track enrollment and access benefit utilization reports.

2. Employees Enroll

Employees are automatically prompted to enroll and provide their claims data. We're experts in driving enrollment and offer an Employer Success Kit to get you the most accurate picture possible.

3. We Harvest Claims

EOBs and data are securely housed in a HIPAA-compliant, SOC II Type 2 database, and identifiable data is never shared with the employer.

4. Go Beyond the Data

Beacon's insights were designed in partnership with leading underwriters to drive smart decision-making and plan creation.
